

FULL SPEED SYSTEMS GROUP Achieves Oracle PartnerNetwork Specialization for Oracle Service-Oriented Architecture

Oracle Recognizes FULL SPEED SYSTEMS GROUP for Expertise in Providing and Implementing Services and Solutions around Oracle Service-Oriented Architecture

DATELINE – Full Speed Systems Group, a leading consultancy for process integration based in Switzerland and a Gold member of Oracle® PartnerNetwork (OPN), today announced it has achieved OPN Specialized status for Oracle Service-Oriented Architecture (SOA).

To achieve a Specialized status, Oracle partners are required to meet a stringent set of requirements that are based on the needs and priorities of the customer and partner community. By achieving a Specialized distinction, Full Speed Systems Group has been recognized by Oracle for its expertise in delivering services specifically around Oracle SOA Suite 11g through competency development, business results and proven success. Oracle SOA Suite 11g is an integrated, best-of-breed suite that helps customers rapidly design and assemble, deploy and manage, highly agile and adaptable business applications.

“I am very pleased that Full Speed Systems has achieved the OPN Specialization in Oracle Service-Oriented Architecture. Through its business unit UNISOA, Full Speed Systems has invested heavily over the past years into this solution set with Oracle. By achieving Specialization, Full Speed will boost its visibility in the market, as well as within Oracle. We look forward to working successfully with FSS on future projects,” said Marc Meignier, Director Alliance & Channels, Oracle Switzerland

Full Speed Systems is a Swiss-based company providing a huge range of consultancy and information technology services based on long-term experience and know-how from more than 400 customer projects. Through UNISOA®, a brand and business unit of Full Speed Systems, a unique combination of deep Business Process knowledge and technical skills are offered, which focuses to add value for customers in all stages of process development and integration solutions.

Full Speed Systems, with its dedicated Business Unit UNISOA, was one of the first companies in the Swiss market to focus on consulting services for Business Process Management and integration solutions based on Oracle Fusion Middleware. In the meanwhile a number of successful projects with Oracle Business Process Analysis (BPA) Suite® and Oracle SOA Suite® have been delivered, where customers can benefit from innovative, tailor-made solutions and engineering expertise in the area of Process-Optimization, -Integration and -Implementation.

About Full Speed Systems

As a full-service provider Full Speed Systems can offer one-stop provisioning for complete and comprehensive services: starting from business process and organizational consulting, conception of an efficient project management and integration

of the processes, through implementation and roll-out using the most up-to-date technology and product platforms, until operation and even sourcing.

Full Speed Systems is a privately held company with corporate headquarters in Central Switzerland and subsidiaries in Germany and Belarus. Some of its recently successfully completed projects include a business process integration platform for Emmi Group, the largest Swiss milk processor and premium dairy, and Halter Enterprises, a leading enterprise for construction and real estate services.

About Oracle PartnerNetwork

Oracle PartnerNetwork (OPN) Specialized is the latest version of Oracle's partner program that provides partners with tools to better develop, sell and implement Oracle solutions. OPN Specialized offers resources to train and support specialized knowledge of Oracle products and solutions and has evolved to recognize Oracle's growing product portfolio, partner base and business opportunity. Key to the latest enhancements to OPN is the ability for partners to differentiate through Specializations. Specializations are achieved through competency development, business results, expertise and proven success. To find out more visit <http://www.oracle.com/partners>.
